

Star Metroland Media Digital Ad Specs

Star Metroland Media offers both standard and custom advertising solutions. This document provides the necessary standards and guidelines for running advertising programs with Star Metroland Media. All Star Metroland Media advertising specifications and guidelines are in compliance with the IAB Canada's L.E.A.N Principles.

General Guidelines and Requirements:

Ads served locally require GIF/JPG and a click-through URL.
 GIF/JPG backup image must be provided with HTML5 creative
 Compressed (.zip) HTML5 file must include all assets contained within ad package. Includes HTML, images, CSS, JavaScript, font files, media and any other files which contribute to the ad display, zipped. One ad size per Zip file.
 Expandable creative must user initiated and third-party served/HTML5 and include a close button with a "Close X" on expanded panel with a clear call to action (i.e. "roll over to expand" or "click-to-expand.")
 Non-skipable video ads must be watched before your video content can be viewed 15 or 20 seconds in length. Skippable video ads allow viewers to skip ads after 5 seconds.

*All advertising submitted is subject to the approval of the Publisher. We reserve the right to refuse any advertising content that does not meet the company's standards of acceptance
